

# Art at the Market

September 23, 2017, located in the Attleboro Farmers Market at O'Connell Field in Capron Park

## Overview

We invite resident artists in the Attleboro area to apply for a vendor space in one of our featured "Art at the market" event. We welcome painters, photographers, cobblers, makers of metal cookware, hardware, service wares, woodworkers, textile designers, sculptors, potters, ceramicists, jewelry makers, candle makers, and other creative and functional wares.

This expansion will promote the cultural arts of our area while attracting more people to the farmer's market and Attleboro at large. We will also encourage vendors to demonstrate their skill to market visitors. This will be an opportunity to revive awareness of the historical trades and skills that were integral to the vitality of our region.

## Setup

Provide a canopy for set up or simply set up a 12 X 12 area for display within the designated artist section of the market. There will be 16 designated artist locations within the market. Artists are responsible for providing all tables and equipment required for setup – although assistance is available upon request. Artist is responsible for all loss/theft/damage of items displayed. Canopy/Umbrella weights are mandatory (40lb/leg for canopy - see AFM website for more details). The set-up period is from 8-8:30 am for a 9:00 opening, The market ends promptly at 1:00.

## Fees

Set up fees are simply \$20 for the event. Payment is due on the day of the event, prior to setup.

## Price Points

There is no minimum or maximum price point. Because much of the traffic will be driven from the market's 6,000+ weekly visitors, we expect the optimal price points to be in the \$20-\$75 range.

## Admission/Approval

Applications are due by 9/2 and will be reviewed by the AFM board of directors. All applicants will be reviewed by the board and 16 vendors will be selected and notified by 9/9.
